AN IMPORTANT REFERENCE TOOL FOR OR/MS

THE OR/MS INDEX 1952-1976

A Cumulative Index of

MANAGEMENT SCIENCE Volumes 1-22 | OPERATIONS RESEARCH Volumes 1-24 | INTERFACES Volumes 1-6

Compiled by **Kneale T. Marshall** and **F. Russell Richards,** Naval Postgraduate School, Monterey, California.

THE OR/MS INDEX offers comprehensive indexing, categorized by subject; it is an accurate and valuable research tool ... at your fingertips on your library shelf.

COVERAGE

AUTHOR INDEX Every paper (approximately 4400) is listed alphabetically by author with each multiple author also listed.

SUBJECT INDEX All papers have been categorized by subject with some papers appearing under several subject areas. Approximately 400 subject categories have been used in an extensive taxonomy with cross referencing. Errata and comments are included. Papers are listed by first author under each subject; each paper has been assigned a short descriptive phrase to help the user locate papers of interest. As a further aid to the user, there is an index to the INDEX.

ORDER NOW! Take advantage of our low introductory price to subscribers of TIMS and ORSA journals. All orders prepaid--we'll pick up the postage.
